

GRAM DISPLAY

The display of frozen food

The Shop-Line range of freezers from Gram are the ideal cabinets for the display of frozen food and ice cream. They are available in 5 different sizes, with the choice of a glass or solid insulated lid. The frame around the glass lid is unobtrusive, drawing attention to the products displayed inside.

Reliability

A Shop-Line display freezer is designed to be opened hundreds of times a day. It will maintain the required internal temperature so you can rest assured that your frozen food is being stored correctly in a high quality cabinet which will maintain its appearance for years.

Standard Features

Gram display freezers are fitted with heavy duty castors, and the lids are constructed using toughened glass. The inner box and the top frame are made of aluminium and the exterior is constructed of pre-painted steel. Internally the cabinet has rounded corners for easy cleaning.

- High load line
- Optimum product presentation
- Factory fitted lock
- Fully insulated top frame
- Low energy consumption, with 60 mm insulation all round

Optional Equipment

- Wire baskets
- Basket dividers
- Thermometer
- Sneeze guard
- Light box
